

What if peace could be my best friend 17.03.2022 jku

What if peace could be my best friend
And a help when I'm in need
What if peace would be a person
With a heart and hands and feet
What if peace would be a baby
Helpless – small – a tiny seed

What if peace would be a man who could calm a stormy sea
And what if peace could calm the storm in the desperate heart of me
What if peace would be a healer
Who could make a blind man see
And what if peace would be an outlaw
Who could set the whole world free

What if peace would be a man who has died on Calvary
And he shed his blood like many do
From TV we know them, too
What if peace has won the life for us
By dying in our place
And what if peace did rise again
And we will see it face to face

And what if peace could live in us
I guess you'd call it grace
And what if we could walk with peace
And trust would be called faith

Now ask me who that peace would be
I'd tell you it ain't me
They called him man from Galilee
And I wanna trust that he
Is also peace for me
